

VOLUNTEER FIELD ASSISTANT IN CONSERVATION EDUCATION and OUTREACH

Assist BFREE in the development and implementation of field courses and educational outreach programs across all disciplines throughout Belize as you:

- Work alongside the Director of Educational Programs to implement field courses in tropical ecology, culture, and the arts from beginning to end
- Assist the Director of Educational Programs in the development and preparation of course materials, field activities and PowerPoint Presentations for field courses
- Collaborate with local organizations, schools and universities to develop outreach educational opportunities for Belizean and international students

Qualifications: Individuals should be: self-starters, hard-working, organized, and able to work independently yet in close collaboration with others. Living in a remote rainforest location requires flexibility and creative problem-solving. This volunteer opportunity is ideal for the person who enjoys the challenge of working with limited resources, possesses strong leadership skills and is a lifelong learner.

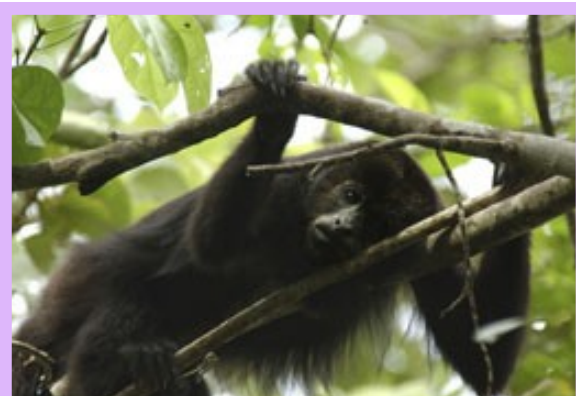

An amazing opportunity to:

Learn about tropical ecology and sustainable living

Be a part of an active biological research station

Interact with scientific researchers

See spectacular wildlife and scenery

Volunteer at BFREE for a once in a lifetime opportunity to live and work in the rainforest!

To apply: Contact Cathy Abbott, Volunteer Coordinator at cabbott@bfreebz.org www.bfreebz.org

The Belize Foundation for Research and Environmental Education (BFREE) is registered in the US as a 501(c)3 non-profit with a biological field station in southern Belize and a US office in Gainesville, Florida. Our mission is to conserve the biodiversity and cultural heritage of Belize. As the only field station in this biologically significant area, BFREE seeks to achieve its mission by successfully integrating scientific research, environmental education and conservation, while also enhancing sustainable development, and providing alternative livelihoods for local community members.
